UCD APPLICATION DEVELOPER'S SIG

Meeting #2 (April 12, 2016)

BUSINESS

- Meetings moved to the **second Tuesday of each month** (May 10 will be Meeting #3)

- App Sec SIG / App Dev SIG looking for area specialists: *Javascript, C#, Java, Python, R, AWS, Azure, etc.* — Get in touch to volunteer or nominate.

The UC Davis Application Developer's SIG provides a regular space and communication channel for campus developers to come together and learn new technologies, new techniques, understand software trends, and encourage collaboration. Our goal is to increase developer engagement, offer training opportunities, and improve overall software quality.

- developers.ucdavis.edu

- Slack channel

- Meetings (tech/project presentations)

- Mailing list (announcements, low volume)

AGENDA

- Introduction to Docker (Matthew Favetti)

- Accessibility and GAAD (David Ritz, Joshua Hori)

- Stack Overflow's Developer Survey (John Knoll)

NEXT MEETING
(MAY 10, 2016)

- NodeJS?

- AngularJS 2.0 and Typescript?

- Open to suggestions (get in touch on Slack or e-mail cmthielen@ucdavis.edu)

"The first 90 percent of the code accounts for the first 90 percent of the development time. The remaining 10 percent of the code accounts for the other 90 percent of the development time."

–Tom Cargill, Bell Labs
